## DISHONEST PRODUCERS ARE ENEMIES OF WILEY

**His Efforts to Prevent Adulterated Foods Meet Disapproval of Many Manufacturers.**

WASHINGTON, April 2.—Quick to follow up the advantage opened to them by the ruling of the National authorities permitting the use of benzoate of soda in unlimited quantities in food products, the beef packers have rushed their doctored meat on the market.

No matter in what section of the country you may live, no matter how remote from the beef-packing centers, it is only a question of time until embalmed beef will reach you, providing, of course, you are a user of preserved meats. It should be understood the order about which there is so much complaint has nothing to do with the fresh meat sold by your local butcher.

Meat and meat products doctored with benzoate of soda have already been placed for sale with dealers in most of the large Eastern cities. Many firms, however, refused to handle products in which benzoate of soda had been used. This class of dealers is being warned that their competitors are accepting goods in which benzoate of soda has been used, and that unless they meet this competition, by cheapening their product, their business will suffer. There is but one barrier to the rich harvest which the packers plan to reap, and that is a few of the States have laws prohibiting the sale of food products in which the drug permitted by the Government is used.

A significant feature of the use of benzoate of soda is the position taken by many reputable dealers, that chemicals are of no value to honest dealers. The only value of the drug, it is claimed by the manufacturers of the better grades of food products who have stubbornly fought the legalizing of the use of benzoate of soda, is to make inferior goods bright and normal.

"Benzoate of soda is of no earthly use to the manufacturer who puts pure foods upon the market," said Louis Burk, president of the Philadelphia Pork Packers' Association. "The only purpose for which it can be used is to defraud the customer. It is absolutely offensive and objectionable. But a lot of manufacturers of food products will use it, irrespective of its effect on public health. Take the big firms which produce sausage and bologna for instance. The cost of manufacture of sausage may be ma-

terially reduced by using water and cereals.

"Water costs nothing and the cereal is cheap. The result is a cheapening of the product and a lowering of the food value. But when water and cereal is added the meat begins to sour. It is to prevent this souring process that benzoate of soda may be used.

"If the bologna maker wants to use a cheap kind of meat benzoate of soda will permit him to do it.

"Now that the Government has given its sanction to the use of the drug, there is not the slightest doubt but that the country will speedily be loaded with doctored goods. Dr. Wiley, the head of the Bureau of Chemistry at Washington, held benzoate of soda to be objectionable, but was overruled by the referee board. The ruling is the opening wedge toward weakening or destroying the National pure food laws which dishonest manufacturers have long sought. Dr. Wiley not only fought for a pure food law for fifteen years, but has endeavored to faithfully protect the people from unscrupulous manufacturers. Certain interests have endeavored to get Dr. Wiley's position, and it is now rumored he may resign. These rumors were started by his enemies, no doubt, who are doing everything under the sun to get him removed in order that they may go along manufacturing dishonest goods."

Scores of honest manufacturers of preserved goods are taking up Dr. Wiley's fight against the use of benzoate of soda. The Druggists' Circular, in a recent issue, deplored the fact that politics frequently is brought to bear on Dr. Wiley to cause him to be lenient in his rulings affecting products of certain foodstuffs. Dr. Wiley is praised for his determined stand against unscrupulous manufacturers.

The official publication of the druggists expresses the belief that the public, while it may not be interested in many steps taken by the Government which do not appear to directly affect it, "when awakened to the fact that it is paying for pure foods and getting stuff that was putrescent and was saved from rotting by chemicals, and then artificially colored to look fresh and wholesome, is not likely to allow the manipulators and misbranders to indulge longer in their bunco game under Governmental protection."

## Mississippi Negroes Offer Assistance to President

WASHINGTON, April 2.—A delegation of negroes from Mississippi, comprising bankers, business men, lawyers and educators, called at the White House yesterday to tender to President Taft whatever assistance they could render in helping him to work out the policies outlined by him in his inaugural address. The visit had to do solely with the so-called negro problem in the South.

In his address to the President the chairman of the delegation said:

"Like you, we do not believe that any satisfactory and lasting results can be reached without the cooperation of the representatives of the more than 10,000,000 negroes who are the bone of contention; like you, we do not believe that any satisfactory and lasting results can be obtained with-

out the approval and cooperation of the dominant class, the whites, in our section, and any policy that makes for peace between us, that means to bring us more closely together, so far as the public good is concerned and the general uplift of our section, and in that uplift the uplift of the nation as well, is much desired by us, and our presence here is to assure you that the negroes of Mississippi will do their part in bringing about the desired ends, and hope not to so conduct ourselves at any time as to embarrass your well-begun administration."

The want ads. do more real estate business than all other brokers combined—in fact, they "start" most of the business that the brokers and agents finish.

## THE GEORGIA CONVICT LEASE SYSTEM ENDED

THURSDAY THE STATE TOOK  
CHARGE OF PRISONERS.

Hereafter Instead of Leasing Her Convicts Georgia Will Work Them  
on Public Roads.

ATLANTA, April 2.—At sunrise yesterday Georgia shook off the last rag of her convict lease system. From one end of the State to the other, hundreds of human beings were led from the cavernous depths of mines, from the sweaty heat of choking kilns, from the whirling, dank atmosphere of factories—out into God's sunlight, from the control of harsh and often brutal task-masters into the service of the State.

Georgia has no State penitentiary. For years her convicts have been sold into the mines, into the brick kilns, into the factories, where private greed sometimes demanded and collected its last ounce of human flesh and its final drop of human blood. But the State decided to abolish this traffic in white as well as black slaves, so instead of selling its 1,600 prisoners it will work them on the public roads.

The change went into effect at daylight yesterday morning, when the convicts were returned to the counties in which their crimes had been committed. Most of the unfortunates are blacks of a low order of intelligence, sentenced for every conceivable crime.

Though shackled and ironed, the convicts greeted the change with shouts of joy and weird hymns of thanksgiving.

Negro preachers were at most of the stockades and led the blacks in their impromptu praise service. Special trains were waiting and the prisoners were transferred as rapidly as possible to their new quarters.

Strangely enough, some of the convicts cried at leaving scenes which had been part of the daily life of some of them for many years.

The new system, it is believed, will not only improve the health of the convicts, but will assure Georgia the finest turnpikes in the South.

## AGED COUPLE'S BODIES DISCOVERED IN CELLAR

TOLEDO, O., April 2.—In the finding of the bodies of Ludwig Krueger, aged 66, and his wife, aged 63, buried in the cellar of their home, which was destroyed by fire early yesterday, the Toledo police are confronted by a puzzling murder mystery.

At 3 o'clock in the morning the Krueger residence, one mile west of Toledo, was discovered ablaze and there was no trace of the Kruegers. When ashes had cooled a search of the debris was made, but there was no evidence of the aged couple having been burned to death.

Later in the day two boys were digging in the cellar and noticed that the brick floor had been tampered with. One of them raised a brick and the face of the dead woman was revealed. More of the floor was taken up and the body of Mr. Krueger was found buried with his head at the feet of his wife. Both had been stabbed to death, presumably with a butcher knife.

M. Soboleski, a tailor, last Saturday paid Mr. Krueger \$2,000 as part payment for the purchase of the farm.

## AN OLD CONFED.

R. J. Ree, an old Confederate veteran of Tennessee, was among the visitors to Gainesville yesterday and attracted considerable attention. He is greatly advanced in years and just why he is traveling at his age is best

## BALTIMORE DEFALCATION MAY GO BEYOND \$100,000

**Young Man Charged With the Theft Lived Like a  
Millionaire on \$900 Salary.**

BALTIMORE, April 2.—William F. Downs, the young clerk in the office of the city register, continues under arrest, charged with embezzlement of funds belonging to the city and further probing into the matter appears to reveal an even worse state of affairs in the city hall than had been expected. Downs was given a further hearing yesterday afternoon before Police Magistrate Johanssen, during which State's Attorney A. S. J. Owens stated in asking that Downs be held that the amount of money taken from the city would probably amount to \$100,000. Magistrate Johanssen held the accused for a hearing this afternoon without bail. Downs' attorney thereupon secured a writ of habeas corpus and took his client before Judge Stockbridge, the attorney declaring the holding of Downs without bail to be an outrage. Judge Stockbridge, however, sustained the action of the magistrate, though upon agreement of the attorneys for both sides bail was finally fixed by the judge at \$50,000.

It is charged that on numerous occasions when Downs went to make deposits in the several banks in which the city has accounts he made out deposit slips for sums ranging from \$300 to \$2,000 less than the deposits should

have been and afterward changed the bank teller's figures in the bank books to show that the full deposits had been made.

## Muchly Married.

Downs is 26 years old and has been twice married, his first wife having died. He has been living in a style very far beyond the means of a \$900 clerk, which he was receiving until recently, when he was promoted to a \$1,400 clerkship, much against his will. His speculations appear to trace back to July, 1907. He has been known widely as a lavish spender. He kept a couple of race horses, had a quartette of prize fighters regularly in his pay, spent much money on prize fights and horse races, sporting trips out of town, and on women, and dressed in expensive style. His home is splendidly furnished. To some of those in whose company he spent large sums of money he is reported to have said that his first wife left him a large fortune, and to others that he won heavily on horse races.

Downs is bonded in a local bonding company to the extent of \$3,000, and City Register Thomas to the amount of \$50,000. The latter bond, it is claimed, covers any defalcations in the city register's office, but this appears to be in some doubt.

## Boy With Kite Causes Trouble With Electricity

COLUMBUS, Ga., April 2.—A small boy and his kite caused far more excitement on Rose Hill late Wednesday afternoon than did Benjamin Franklin, when he drew the lightning to his now celebrated kite.

The twentieth century kite referred to fell across two of the main tension wires of the Columbus Power Company, each charged with 5,500 volts. In an effort to pull his kite down the boy drew the two wires together with the result that they burned in two and

fell to the ground. Shortly afterwards an old gentleman strolled that way, and noticing the wires in the road picked them up to lay them aside, and was, himself, laid aside. That he was not killed seems remarkable, but it so happened that the shock he received was not unduly severe, although it made him leave the scene in great haste. The only damage done was to cut out the lights for about one-half hour in the secondary industrial school and a few hosiery mills.

given in his own words, which were that it was necessary for him "to live."

His only companions are his two dogs and two mules, and he has an old-fashioned wagon canopy covered that serves as his home. Of late years his health has become so impaired that he decided to live in the open air and he managed to get enough cash together to purchase a team. With this he started out, and it has probably been due to this mode of living that he still lives.

His breast has all been shot away, besides numerous other wounds and

scars which show the results of hard battles in which he participated.

Mr. Ree states that he has traveled Florida almost exclusively for the past year and finds more generosity among its people than any other section he has ever visited. The people all along the roadway are always good to him and his companions and feed and take care of what he has with pleasure.

Some article that is simply "in the way" at your house might, if advertised, be sold to someone who is anxiously looking for it.

## Husband and Wife, Tired of Life, Die Together

AUGUSTA, Ga., April 2.—Samuel Eldson, aged 52 years died last night at the city hospital as the result of self-inflicted pistol wounds. His wife, Mrs. Emily Eldson, succumbed to the wounds he inflicted upon her with the same revolver.

Sunday night the two became involved in a quarrel soon after returning home from religious services. In a rage Eldson opened fired on his

wife and when she fell he directed the muzzle of the revolver to his own heart. An hour later they were discovered by a policeman who heard the shots.

They were sent to the city hospital but neither husband nor wife recovered consciousness. The cause of their quarrel will remain always a mystery as no semblance of a statement was secured.

## HER ARREST IN INTERFEITING CASE

DEPUTY DAWKINS RETURNS  
WITH PRISONER.

That He Is Another Member  
of the Gang Who Operated  
Near Newberry.

Warren, a middle-aged white man, was arrested in the interfeiting case from Newberry, S. Deputy B. F. Dawkins arrived Friday with the man in charge. Dawkins had been absent for two days summoning witnesses and looking for the man that had been captured and brought here in this case, which will be given before U. S. Commissioner on next Tuesday.

Warren's brothers, J. J. and Simeon, were arrested some time ago, Warren making the third of what was supposed to be a gang of six or more interfeeters who worked the game successfully in the Newberry section some time before they were finally detected and a stop put to the case.

Twelve witnesses have been named in the case and it will probably bring a large crowd here to the hearing.

Several of the merchants in the end section were caught by the police and it is alleged that this made the "coin" in 10 and 25 pieces, besides a number of half-pieces have been discovered. The other denominations were said to be excellent specimens and in a rush could be hard for anyone to detect from the genuine.

## THE NEWS FROM ARCHER.

of Popular Young Man—Cabbage Bringing Good Prices.

ARCHER, Fla., April 2.—The many friends of Mr. Percy Dill will be grieved to hear of his death, which occurred yesterday afternoon at 5 o'clock at the home of his aunt, Miss Sallie Ramsey, whom he had lived for the last twenty years, his mother dying when he was an infant. He was a kind, cheerful boy, a great comfort to his aunt, and will be sadly missed. Although he had been sick for several months, his death came as a surprise. Every-thing that faithful physicians and loving hands could do was done but when death calls no hand can stay. He had been a valued employee of the Madison Foundry Co. for two years. The funeral services were conducted by Rev. Newman at the Presbyterian church at 1 o'clock, then his body was taken to Arredondo, where the Woodmen of the World buried him with full services, all of the Woodmen here accompanying the remains, showing their esteem for him. His grave was more than covered by beautiful flowers. Besides his aunt, he leaves one sister, Mrs. Joe McKinney, Wacahoota, one brother, Mr. Charley Dill of Wacahoota, and two uncles, Messrs. Perry and Marion Ramsey.

Mr. and Mrs. John King are the proud parents of a baby girl. Miss Ella Jones of Gainesville is visiting her sister, Mrs. Monroe Venale.

A water tank is being made here for the two railroads. It will fill a long-felt want, as the engines have to go all the way to Bronson to get their supply of water.

The truckers are busy shipping cabbage and so far have gotten a very good price for them. The heavy rains this week have been a great benefit to them.

The friends of Mr. Baldwin will be sorry to know that he is still confined to his bed.

Miss Madge Newman of Lakeland is visiting her uncle, Rev. H. H. Newman.

## PLEASED WITH PROGRESS.

Superintendent John Young of Ocala  
Was Here Yesterday.

Supervising Architect John Young of Ocala was in the city Friday for the purpose of looking over the work being done here by the contractors on the new Federal building.

He expressed himself as being well pleased at the progress made on the excavation work, but is of the opinion that some delay will now be occasioned until the Government approves the sand, rock, brick and other materials that are to be used on the work.

In this event he said the delay would hardly amount to over two weeks, and then the work will be rushed as fast as it is possible for them to get the material and put it up.

As soon as the material arrives Mr. Young will spend at least half of his time in Gainesville, and in looking after both this and the Ocala building, will be kept a pretty busy man.

## Attendance Increasing.

The largest congregations of the week greeted the speakers at the Baptist church at both services yesterday.

Dr. Martin takes advance ground on many of the controverted questions of the age. His application of the Bible to many of the theories which are agitating the minds of the people are clear, forceful and conclusive. He is as tender as a child in his applications, but fearless in denouncing what he conceives to be detrimental to man's best interests and contrary to God's word. His wonderful exposition of the Bible should be heard by the entire city.

Needless to say the music is good—it is exceptionally fine—a perfect treat—and only praises of it are heard by all who have heard Mr. and Mrs. Schofield.

Tonight the speaker will preach on "Hell as Taught by Reason, by Ingersol and the Bible." Services begin 7:30, preaching 8 p. m.

## Considerate.

"The most considerate wife I ever heard of," said the philosopher, "was a woman who used to date all her letters a week or so ahead to allow her husband time to post them."

## HEAVIER RAIL FROM GAINESVILLE SOUTH

SEVENTY-POUND STEEL RAIL TO  
REPLACE THAT NOW IN USE.

Preparations Have Been Under Way  
for Sometime for This Much-  
needed Improvement.

The Atlantic Coast Line have completed arrangements to relay their track from Gainesville south and will commence work on this improvement within the next few days.

Material is already arriving for the proposed changes and it is rumored that work will commence next week and continue until they connect with the West Coast line near Brooksville.

The rail that has been in use along the Florida Southern branch of this system was considered too light for the service it was performing and the officials have ordered that seventy-pound steel rail be placed on this division.

Just what the Coast Line intend doing by increasing this rail is not known, but appearances indicate that they intend either running more trains or expect to have considerable heavy hauling along this route.

It will probably be the means of having some of the extra large and heavy trains run via this city instead of going via the West Coast as has been the custom for the past several years, and it is known that when a rush was on in moving trains to Tampa they were run over the West Coast principally upon this ground, the rail here being too light for the extra large engines.

## HAS REACHED SECOND STORY.

Davis & Oliver Are Rushing Work on  
Their New Stables.

Work on the second story of the new stables of Davis & Oliver will commence about the first of next week, and if the contractors have good weather they hope to complete the brick work within a short while.

For the past two weeks they have been busy in building the piers and two walls for the first story of this structure and now have this part of the work about completed.

The improvements are very noticeable and the new brick make a good showing. The walls are very thick and in every way the structure will be one that will be able to stand all the strain that will be placed on the second story, which is to be used as quarters for horses and mules.

## Card of Thanks.

I desire to express to my many friends my heartfelt thanks for the loyal support they have rendered me during the piano contest. It is now drawing to a close and I will appreciate very highly if they will stick to me, and remember that I am in the race to the finish notwithstanding the many rumors to the contrary. The vote received has been a flattering one, and if the main ones will remain true and loyal they can yet be surprised in the final result. Again thanking you and soliciting the votes of all, I am, Very respectfully,

CATHERINE HAILE.

## NIGHT TRAINS WILL SOON BE TAKEN OFF

SOME RAILROAD OFFICIALS THINK  
WILL OCCUR ABOUT 18TH.

Was Run Way into May Last Season  
and Proved Great Convenience  
for Traveling Public.

The night trains between Jacksonville and St. Petersburg over the A. C. L., which are operated through the winter and spring months, are to be taken off sometime during the present month, according to a general rumor now current.

The reporter endeavored to verify this report yesterday, but was unable to gain any information as to just what time this would happen.

This night service is a great convenience to the people of this section, and probably no other city in the State enjoys the advantages of this double service to a greater extent than Gainesville.

Aside from the fact that Gainesville is greatly benefited, it looks as if sufficient pressure could be brought to bear upon the railroad officials to operate the service the year round. From an outsider's standpoint it certainly seems as if the trains were a paying proposition, for they handle nearly as much business as the day trains.

Last season these trains were kept on until late in May and judging from the large amount of business handled by them it was a paying proposition.

This is a chance for the Gainesville Board of Trade to get busy and see if they cannot do something to have the service continued.

Gus Morton and wife of Williston were among the shoppers visiting Gainesville yesterday. Mr. Morton states that the county movement is coming and the people there have something "up their sleeve" that will be sprung at the proper time.

J. E. Wells, the popular bookkeeper of C. W. Banknight at Archer, arrived in the city yesterday and will spend some time here visiting his family. He has been feeling indisposed for the past few days and decided that he needed rest and recreation.

We often wonder how any person can be persuaded into taking anything but Foley's money and Tar for coughs, colds and lung trouble. Do not be fooled into accepting "own make" or other substitutes. The genuine contains no harmful drugs and is in a yellow package. J. W. McCollum & Co.

Hon. Shields Warren, receiver of the U. He reports that he left the patient much improved and she will again be up within a short while.

During the spring everyone would be benefited by taking Foley's Kidney Remedy. It furnishes a needed tonic to the kidneys after the extra strain of winter, and it purifies the blood to eliminate the impurities from it. Foley's Kidney Remedy imparts new life and vigor. Pleasant to take. J. W. McCollum & Co.

Miss Mamie Shatt left yesterday for Jacksonville. She goes to meet her friend, Mrs. C. B. Wigent of Jackson, Michigan, who will spend some time here. This is her first visit to Florida, and coming from her State into a country all fresh with the budding of spring, the change will prove a revelation to her.

Mr. F. G. Fritts, Onondaga, N. Y., writes: "My little girl was greatly benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is best for women and children, as it is mild, pleasant and effective, and is a splendid spring medicine, as it cleanses the system and clears the complexion. J. W. McCollum & Co.

### Names Cause Confusion.

Robt. N. Owens, who has for many years been engaged here in different vocations, but principally in the dairy business, desires that his friends all remember the fact that he is not the man who has been sentenced to hang, neither is he in anyway related to that party. Governor Gilchrist is to be commended for his action in having Judge Palmer convene a special term of court at Tallahassee for the trial of the negro who murdered Leon county's worthy sheriff.

The beauty of the magnificent oaks which adorn the streets of Gainesville is especially noticeable at this season of the year, and expressions as to their attractiveness are often heard from strangers visiting the city.

The Woman's Edition of The Peninsula Evening News issued on March 28th was replete with valuable reading covering many subjects. The edition embraces 38 pages, and is a splendid testimonial of woman's ability where there is concerted action.

The twelfth annual report of the Florida Railroad Commission, for the year ending March 1, 1909, has been issued. The document embraces over two hundred pages and contains a great deal of information relative to the work of the commission. The total expenses of the commission for the year ending Dec. 31, 1908, is given as \$7,955.77.

Captain Kidd has been dead for more than two centuries but he seems to be responsible for the loss of more money than ever he stole from unwilling victims when he was a pirate bold sailing under the black flag. Every once in awhile we read of someone who spends a little fortune and a good deal of time in the vain search for the pieces of eight, ducats, gold and silver vessels, gems and other booty which Kidd is popularly supposed to have buried. The number of holes dug in the ground along the Atlantic coast in seeking for hidden treasure must be quite numerous by this time, and they represent in addition to much money and time wasted the deep rooted belief that Kidd and other men of the skull and cross bones did bury large quantities of ill-gotten gains. But if they did their discovery is extremely unlikely, and the man who is just about to search a deep hole or well on Oak Island, Nova Scotia, will probably put more money into it than he will take out.

At this season when most houses are undergoing their annual spring cleaning and renovating why not extend the work to include the city or town? Attractive as many places are we have never yet seen one that does not admit of more embellishment. Waste places cleaned up, alleys and vacant lots relieved of old cans, broken bottles and other rubbish, trees trimmed and others planted where necessary, parks and other public places put in good order and better provided with seats and other conveniences—these are some of the ways in which the "city beautiful" may be realized. The money cost of such improvements is usually small, the principal outlay being in time and labor. In very many places some enthusiastic and wise co-operation of the municipal authorities and citizens generally is sufficient to produce a transformation. It has already done so in many communities. A squalid, down-at-heel appearance in a community is no more excusable than the same condition in a home.

## INCREASED USE OF TELEPHONES.

Another prominent representative of a foreign industry who came to this country to study the American way of doing things, has returned home filled with wonder and admiration at American methods, energy and cleverness.

The latest case is that of Mr. Farranda, a director of the telephone company of Rome, Italy. He came here during the latter part of last year to study telephone conditions in the more important cities of this country. The interesting results of his investigation have made the easy-going Romans well-nigh incredulous.

Rome has about 8,000 telephone subscribers, so when Mr. Farranda reported New York as having 310,000 subscribers, and telephone calls averaging 1,250,000 daily, these being sent through 53 exchanges, which are operated directly or indirectly by 12,000 employees, it was quite beyond the understanding of the Romans. Many of these exchanges in New York, he finds, have more subscribers than there are in the whole city of Rome.

Notwithstanding the fact that the telephone business in New York has reached such enormous proportions, it nevertheless seems to meet with the approval of subscribers. These have increased more rapidly than the population of the city. For example, in 1900 there were but 56,000 telephone subscribers in New York, whereas the population of the city at that time, as given by Mr. Farranda, was 3,200,000. In 1905 the total number of subscribers reached 190,000, an increase over 1905 of approximately 63 per cent. The population of the city in 1905 was 4,600,000.

Nor is this remarkable development of telephony confined to New York. Mr. Farranda finds that telephone subscribers in Chicago number 156,000, Philadelphia 101,500 and Boston 101,000.

In an interview in a leading Italian newspaper Mr. Farranda stated that many reasons could be advanced for the high degree of perfection reached by the telephone service in the United States, among them being:

"The number of employees is not the sole cause for the regularity of service. It is to discipline that the good results must be attributed, and which makes the system so perfect. Fines are imposed on those employees who break the rules the first time, and they are dismissed from the service for the second offense. Notwithstanding the discipline, telephone girls seem well satisfied with their positions and telephone companies have less trouble with them than they do in Rome."

"The primary reason for good service is the installation and the type of apparatus used, which is manufactured by the Western Electric Company. It is of simple construction, easily taken apart and repaired."

Mr. Farranda caused great astonishment by the statement that New York and Chicago, separated by a distance of something like 1600 kilometres, are connected by telephone, and that for a three-minutes' conversation between the two cities a charge of four dollars is made. "It is a good deal," said Mr. Farranda, "but I assure you transmission is marvelous, as I made the experiment myself and was astounded."

There are a great many people who do not know it, but more harm is done to the health of sick people by a stream of callers than by the failure of the telephone to work when the doctor is wanted, wisely remarks The Tampa Times. It should be the rule to exclude from the sick room every person whose presence and services are not actually required by the case.

## Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## CURRENT COMMENT.

The Charleston Post says: "Uncle Sam insists that each national guardsman in South Carolina be provided with a \$16 overcoat. This means that a good part of the Government funds for the militia is to be used in buying this garment. The balance seems to be too small to pay for encampments and the volunteer soldiers are not allowed to pawn their uniform coats during the warm months."

The Washington Herald says: "By no pathway can the President of the United States escape the responsibilities of administration or of popular leadership, for he is directly beholden to the people. However agreeably he may undertake to carry these responsibilities, he must meet them squarely. Opportunity is constantly before him, as now, in the matter of the tariff. In what manner he seizes upon it, improves it, and becomes master of it—that will show of what stuff he is made."

The Philadelphia Record (Dem.) says: "The steel trust has entered upon a desperate campaign, with a well-equipped force in the lobbies of Congress, to defeat free importations of iron ore from the mines of Cuba. This is now a more important matter with the trust than the proposed reductions of duty on steel rails and building materials. In spite of its immense possessions of Lake Superior ore and its absorption of the Tennessee Company, the giant corporation still dreads the free competition of the mines of Cuba. It is said by naturalists that the elephant trembles at the sight of a mouse."

The Hartford Times (Dem.) says: "Champ Clark's opinion about the new tariff being distasteful might well raise the question as to when the tariff has been palatable to many, or all, or even the majority. The tariffs of 1816 and 1824 were nettles. The Whig tariff of 1842 was full of exasperations. The Walker tariff of 1846 did please many, and after eleven years was materially reduced, but it disconcerted the revenues in ways that embarrassed. The tariff of 1883 was an abortion and pleased no one in either party. The McKinley act of 1890 raised duties beyond any point hitherto known—to an average of 50 per cent—and the Mills bill's average of duties was also about 42 per cent. The Wilson and Wilson-Gorman measures awoke all sorts of dissension and changed fond dreams to nightmares. The Dingley tariff ought to please all who believe in a highly protective measure, but it is plain that it fails to do so. As for the Payne bill, it is well to look at it sharp, as when it passes it may be unrecognizable."

"I suffered habitually from constipation. Doan's Regulets relieved and strengthened the bowels, so that they have been regular ever since."—A. E. Davis, grocer, Sulpaup springs, Tex.

### SHERIFF'S SALE.

Under and by virtue of an execution issued out of the County Judge's Court of Alachua county, Florida, on the 13th day of February, A. D. 1909, in a certain cause therein pending wherein G. B. Brockington, S. L. Brown, Abe Broom, Henry Peterson, J. S. Sanderson, J. W. Scott and A. G. Griffin, as Trustees for Bethlehem M. E. Church, were plaintiffs, and William McCray was defendant, and wherein judgment in favor of the plaintiffs was rendered and filed and recorded in the office of the Clerk of the Circuit Court of Alachua county, Florida, I, P. G. Ramsey, as Sheriff of Alachua county, Florida, have levied upon and will sell before the court house door in Gainesville, Alachua county, Florida, on Monday, the 3rd day of April, A. D. 1909, between the legal hours of sale on said day, all the following described real estate, lying and being in the County of Alachua and State of Florida, to-wit: All of the Northeast quarter of the Southeast quarter of Section 5, Township 8, South of Range 19 East, lying North of the Old Black Creek road, except the Ten-acre Lot of Rosetta Madisons and the One-half-acre Lot belonging to the plaintiffs, containing, by estimation, thirty acres of land, more or less.

Together with all and singular the tenements, hereditaments and appurtenances thereunto belonging or appertaining. Said property levied upon as the property of William McCray to satisfy said execution and costs.

## CONFIDENCE

We Back Up Our Statements With Our Personal Reputation and Money.

We are so positive that we can cure constipation, no matter how chronic it may be, that we offer to furnish the medicine free of all charge if we fail.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxatives or cathartics do much harm. They cause a reaction, irritate and weaken the bowels and make constipation more chronic. Besides, their use becomes a habit that is dangerous and often fatal.

Constipation is caused by weakness of the nerves and muscles of the large intestine or descending colon. To expect a cure you must therefore tone up and strengthen those organs and restore them to healthier activity.

The discovery of the active principle of our remedies evolved the labor of the world's greatest research chemists. It possesses all the best qualities of the remedial active principle of the best-known intestinal tonics, and it is particularly prompt in its results.

We want you to try Rexall Orderlies on our guarantee. They are exceedingly pleasant to take and are ideal for children. They act directly on the nerves and muscles of the bowels. They have a neutral action on other organs or glands. They do not purge or cause any inconvenience whatever. They positively cure chronic or habitual constipation and the myriads of associate or dependent chronic ailments. Try Rexall Orderlies at our risk. Two sizes, 25c and 10c. J. W. ### A Baby Show in Gainesville

Would have many contestants; but it's safe to say that the healthiest baby would win the prize. No baby can be healthy who suffers from worms, and most babies do unless they are kept free from them with White's Cream Vermifuge. Acts quickly, yet mildly—is its own purgative. Mothers, don't attempt to raise children without White's Cream Vermifuge. Price 25 cents. Sold by W. M. Johnson.

### Why Sailors Like "Scraps."

It has long been observed that the sailor, whether in commercial or government service, takes a peculiar delight in "mixing up" with the blue-coat, but this inclination has been attributed more to a natural exuberance which comes with a land leave, accelerated somewhat by artificial means, than to animus inherent with deep sea life. But why this feeling? Perhaps it is that the strict rules of marine service, the long periods of close confinement to which the seaman is subjected, make him a hater of any one who wears the emblem of authority when he is temporarily enjoying freedom on shore leave away from the restraints aboard ship. The sailor wants liberty in its full sense, and realizing that the blue-coat is the chief obstacle to his obtaining it, he develops a pre-conception that the only way on earth to be treated on general principles is to be treated on general principles. In other words, he feels that the only way to get on with the blue-coat is to be on a par with him.

One Quarter of a Pound a Week  
At least, is what a young baby ought to gain in weight. Does yours? If not there's something wrong with its digestion. Give it Mother's Baby Food. Cures stomach and bowel troubles, aids digestion, stops fretful mood, good for teething babies. Price, 25c. Sold by W. M. Johnson.

## WINDSOR SCHOOL EXERCISES.

An Extra Month Has Been Granted. Fine Exercises.

WINDSOR, April 2.—The entertainment given at Windsor by the pupils of the school was a grand success. It was attended and highly appreciated by the patrons and people of the community.

The program was of a varied and entertaining nature and was as follows:

Song—"Happy Greeting."  
Recitation, "Trials of a School Marm"—Evelyn Story.

Recitation, "How Miss Edith Holes Things Along"—Edna Latimer.

Dialogue—"The Young Teacher."

Recitation, "A Boy's Pocket"—Russell Thomas.

Recitation, "Those Dimples"—Fanny Story.

Recitation, "Little Blossom"—Agnes Beckham.

Dialogue—"Chestnuts Are Ripe."

Recitation, "In School Days"—Pearl Storey.

Song—"School Days."

Dialogue—"Bashful Young Man."

Music—Violin solo by Master Guy Hanf, with guitar accompaniment by Mrs. A. J. Hanf.

Recitation, "A Similar Case"—Minerva Thomas.

Recitation, "Watching for Crumbs"—Kathryn Latimer.

Recitation, "On the Gate"—Madge Thomas.

Dialogue—"Mice Play."

Dialogue—"Red, White and Blue," in costume.

Song—"Columbia, the Gem of the Ocean."

Recitation, "Curfew Must Not Ring Tonight"—Minerva Thomas.

Recitation, "The Ghost"—Mrs. Latimer.

Recitation—Mrs. Maude King.

Dialogue—"Going to Mauro."

Music.

The pleasant affair ended with a social fifteen minutes.

The school, however, does not close at once, as our worthy superintendent, Dr. J. L. Kelley, has granted an extra month, for which we are very grateful.

Mrs. W. H. Latimer continues as teacher.

## CATARRH DESTROYED MY APPETITE.

PERUNA rarely fails to restore the appetite. Immediately upon beginning the use of Peruna patients begin to eat and digest. This is the universal testimony, coming from all parts of the civilized world.

Catarrh is a very frequent cause of loss of appetite and disturbed digestion. The beneficial influence of Peruna on catarrh completely restores the appetite in such cases.

To prod the digestive organs with medicines that are merely stimulants is a poor way to remedy such cases.

"I am now cured and cheerful in spirits, all through the agency of Peruna, which has cured me effectually and restored my appetite."

"My only regret is that I did not use Peruna sooner and I would have avoided all my previous suffering and misery."

—Mr. Joseph H. Conlan.

### Removed Catarrh, Restored Appetite.

Mr. Joseph H. Conlan, 487 7th Ave., Brooklyn, N. Y., writes:

"I suffered from catarrh which completely destroyed my appetite and weakened my entire system."

"I am now cured and cheerful in spirits, all through the agency of Peruna, which has cured me effectually and restored my appetite."

"My only regret is that I did not use Peruna sooner and I would have avoided all my previous suffering and misery."

### Torpid Liver, Stomach Trouble.

Mr. James O'Byrne, 626 Madison St., Topeka, Kas., conductor Sante Fe Railway and member Order of Railway Conductors, writes:

"I suffered with a torpid liver and stomach trouble, which made my complexion very sallow, and I felt miserable and tired all the time."

"An aunt wrote me that she was taking Peruna with such good results that she advised me to try it, and I finally bought a bottle, although I disliked to take patent medicines."

"However, I found Peruna very agreeable to take, and effective, as I felt better in a week. I took only five bottles in all and I found that was all I needed."

"I am most grateful to you for what your medicine has done for me."

Dysentery Entirely Relieved.

Mr. W. N. Casey, Leamington, Ill., writes:

"In two weeks after beginning your treatment I was well. I used nine bot-

tles of Peruna. My case was bowel trouble or dysentery."

"I also tried Peruna for a cough, according to directions, and it exceeds any cough syrup I ever used."

"I wish every one afflicted would give Peruna a trial."

### Pe-ru-na as a Tonic.

Capt. R. B. Smith, Greensboro, Ga., writes:

"After using several bottles of Peruna I can recommend it as one of the best catarrh medicines on the market. As a tonic it has no equal."

"Peruna is all that is claimed for it."

### Catarrh of Stomach.

Mr. Henry Neely, First Lieutenant, Co. "F," 86th Regiment, O. V. I., Box 623, Trenton, Mo., writes: "I suffered for years with catarrh of the stomach. Seeing an advertisement of Peruna, I bought a bottle and every dose made me feel better. Seven bottles completely cured me."

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

**FOR CITY MARSHAL.**  
To the Voters of the City of Gainesville:  
I am a candidate for City Marshal, for re-election on April 13. I have served the people faithfully and efficiently, night and day, and my record is open for inspection.

If my service during the past year has been satisfactory I ask the support and vote of each and every citizen who is qualified. I can only promise the same service as I have endeavored to give in the past.

Yours for order,  
BEN T. ARNOW.

I take this method of informing the public that I am a candidate for City Marshal at the election to be held on April 13, 1909. I respectfully solicit the support of all voters, irrespective of party affiliation, and promise to faithfully and impartially discharge the duties of the office should I be elected. Respectfully,  
CHAS. C. WARREN.

**FOR TAX ASSESSOR.**  
To the Voters of the City of Gainesville:  
I respectfully announce myself a candidate for City Tax Assessor for the year 1909. Having been Tax Assessor for four years, I am fully prepared to fill the office, as my record will show, the city assessment having been increased in that time from a little over \$600,000 to over \$1,000,000. I was prevented from running for this office last year on account of sickness, and now respectfully solicit your votes.  
W. M. BRADFORD.

To the Voters of Gainesville:
